Hi,

About 20 months ago, I ordered a customized modular kitchen from Modular Life Styles in Bangalore for my upcoming house in Mysore. Myself and my wife Manjula visited their showroom several times to see samples and have detailed discussions with Mr. H.N. Murali, the owner of Modular Life Styles. Together, we created the final design and a list of components for our modular kitchen. About a year back, the kitchen cabinets were installed and today our kitchen is an object of admiration and envy of all those who visit us.

Our kitchen is aesthetically beautiful, functionally very user-friendly and of a good quality. Price-wise it is moderately priced when compared to known brands.

During our many interactions with Mr. H.N. Murali, we found him to be highly professional, knowledgeable, creative, innovative and helpful and, above all, very friendly, approachable and willing to accommodate ideas proposed to him and make changes. It was a pleasure to work with him. I have no hesitation in recommending him to anyone who is looking for a beautiful, fairly priced kitchen.

Regards,  
K.S. Ramesh
