Hi ,

Please find below testimonial for Sypce kitchens from my experience ---

"Our search for modular kitchen & wardrobes for our newly built house ended with Spyce kitchens (erst while Modular lifestyles). It was a pleasure to meet Murali & team and the way they came across with the kitchen design. The options shown were based on what we wanted in the kitchen. The whole focus was on the needs of the resident of the house rather than a forced option from the vendor. The quality & durability of the finished product is worth the amount spent. We are completely satisfied with the outcome.

Finally the continued after sales support is really excellent. You don't have to worry about any broken hinges or screws. Everything will be taken care of with just a call away!!!"

Keep up the good work!

Thanks,
Shashi Shekar.B.S
